PROFESSIONAL SUMMARY

Product Designer with 3+ years of experience designing digital products, landing pages, and web interfaces for clients across Latin America - Brazil, Colombia, Argentina, Ecuador, and Chile. Specialised in end-to-end UX/UI design: from user research, wireframing and prototyping to front-end implementation. Currently integrating AI tools into the design workflow to accelerate delivery and push creative boundaries.

EXPERIENCE

Web Designer Jr | **AddSales** Aug 2022 - Present

- Designed and delivered landing pages and UX/UI interfaces for clients across 9 countries: Brazil, Colombia, Argentina, Ecuador, Chile, Uruguay, Spain, Mexico, and Portugal
- End-to-end workflow from wireframing and prototyping in Figma to front-end implementation
- AI-powered content production including video generation with Veo 3 and image creation for social media campaigns
- Designed responsive landing pages optimised for conversion across multiple industries and markets

UX/UI Designer Intern | **TT&T IT Solutions** May 2024 - Oct 2024

- Applied Lean UX methodology across the full design cycle for a real digital product
- Conducted user research, created personas and journey maps to ground design decisions in real user context
- Produced wireframes and high-fidelity prototypes in Figma, collaborating with cross-functional teams

Graphic Designer (Freelance) | **Nith Treinamentos** Jan 2022 - Jun 2022

- Created graphic materials, ebooks, and visual assets for educational content

Document Designer | **Click Traduções** Jun 2021 - Apr 2024

- Formatted and typeset translated documents for international clients
